

# ***ARE YOU TIRED OF MAKING THE SAME NEW YEAR'S RESOLUTIONS?***

## ***DO YOU WANT TO CHANGE YOUR LIFE?***

---

Make your resolutions in October and let this be *YOUR* year!!!!

### ***DO YOU:***

Feel stuck? Feel unfulfilled? Feel lost? Feel unhealthy?

Do you, or have you, felt like a fish out of water for many years – feeling displaced and different?

Are you seeking answers to questions your doctor or therapist can't answer?

### ***WE HAVE THE ANSWER***

This five-day workshop will open the door to many questions gone unanswered. Opening your mind and utilizing your God given intuition could be the answer for you to move forward and be the person you know you are.

Dedicating those five days could provide you with a lifetime of contentment by giving you the tools needed for the happiness you seek. So, before you lose another year of your life, give yourself the gift of being physically and emotionally ready for 2011. You can't build a house on quicksand no more than you can build a life in a body that's emotionally and physically drained. Whether you're male or female - finding happiness comes from within – clarity comes when you learn how to unlock the door to your subconscious. Join us for our October classes and find the fulfillment you deserve.
